DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-4 are rejected under 35 U.S.C. 103(a) as being unpatentable over Pu et al (patent no. US 6292743 B1) in view of either Yokoyama (patent no. US 6278941 B1) or Trovator et al (patent no. 5835881).

As per claims 1-4, the claimed limitations have been met by the Pu et al reference for the reason set forth in the last office action with the exception of the voice synthesizer as argued in the amendment. However, such voice synthesizer is extremely well known at the time the invention was made and is clearly shown in item 107, figure 1 of the Yokoyama reference or item 120, figure 1 of the Trovator et al reference. It would have been obvious for a person having ordinary skill in the art at the time the invention was made to incorporate such well known feature as taught in either Yokoyama or Trovator et al into the Pu et al system so that the output of the route data can be facilitated.

3. Applicant's arguments with respect to claims 1-4 have been considered but are moot in view of the new ground(s) of rejection.
4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 3661

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

5. The additional reference(s) is/are cited to show the claimed voice synthesizer is old and well known. Applicant(s) should consider them carefully when responding to the current office action.
